

00:00:50
Fruit Harvest

THE MOST EFFICIENT FOR Fruit Harvest

SULPHA
Seerin™ SOP (00:00:50) is a Potassium Sulphate fertilizer for Sulpha™ of all crops. It combines potassium and sulfur, two nutrients essential for plant growth. Seerin-SOP (00:00:50) is a recommended source of potassium where soil pH needs to be lowered, when sulfur is required, or when N application rates should be limited (e.g. at the end of the season). It enhances plants' resistance to drought, frost, insects, and diseases, thus improving yield and quality. Seerin- SOP (00:00:50) helps gain higher nutritional value of crops, better taste and appearance, and enhanced suitability for transport and storage. Seerin- SOP (00:00:50) is a crystalline product, fast-dissolving, highly soluble, and virtually free of chloride.

CONTENT:

Total available Sulfur	17.5%
Total available Potassium	50%
Total moisture% maximum	1.5%
Solubility g/L at 25C	120
EC (mS/cm)	15.63
pH	3.7

BENEFIT: Provides a good quality harvest as it has low chloride and sodium content. It is ideal for all crops & all types of soils since it helps in lowering the pH of irrigation water. It is ideal to apply in the growth period where the potash requirements of the crop are high.

DOSE: For drip 5 Kg per Acre at harvesting stage regularly & for foliar spray 1 Kg in 200 Liter water along with 250gm Akshat Combi-2.

SPECIALITY: High field efficacy. Boost in EC. Seerin- 00:00:50 is compatible with most water-soluble fertilizers. Safe and Easy to Use. Low chloride and insoluble matter content.

CROPS: All Vegetable Crops, fruits, field crops, and Nursery Plants.
