

**Combi-2**  
Chelated multi-Micronutrients

**THE MOST EFFICIENT FOR**

**Chelated Multi-Micronutrients**

Akshat Combi-2 products are the chelated multi micronutrient fertilizer with Magnesium and sulfur for the prophylactic and curative treatment of micronutrient deficiencies in intensive crop and field crops. It's an ideal complement to plant nutrition in a wide variety of plants for optimal development and best yield. Intensive crop production calls for perfectly balanced nutrition that includes all plant essentials. Special care and reliable monitoring are required to avoid micronutrient deficiencies, as they may impair plant growth. Crop quality and yield are threatened even by hidden problems without visible symptoms.
