

Reclaim Soil Conditioner

THE MOST EFFICIENT FOR Soil Conditioner

Reclaim-90% is consists of sulfur 90% percent by weight. It is used to make amino acids, proteins, and oils. It is necessary for chlorophyll formation, promotes nodulation in legumes, helps develop and activate certain enzymes and vitamins, and is a structural component of two of the 21 amino acids that form protein.

BENEFIT: Some of the benefits are as follows:

- Nutritional- It acts as a Nutrient for plants, improving the quality of the substrates and stimulating vegetative growth.
- Soil Conditioner- It works by improving the physical-chemical and biological properties of the soil or substrates so that plants can develop under better conditions.
- Biostimulant- Biostimulant increases the efficiency of the plant metabolism, improving both yield and quality of the harvest.

Sulfur	90 %
Moisture	0.5 %

DOSES:

Drip / Basal	3 Kg per Acre
Foliar Spray	30-40 gram per pump

CROPS: All Vegetable Crops, fruits, field crops, and Nursery Plants.
