

00:60:20
Reducing soil pH &
Enhancing fertility

THE MOST EFFICIENT FOR

Reducing Soil pH & Enhancing Fertility

The only fertilizer that contains both phosphorus and potassium is Seerin **phospha-TM** 00:60:20. A solid, highly acidifying, dry mono-crystal fertigation fertilizer. Seerin-00:60:20 is a new, specially tailored PK fertilizer for fertigation (open-field and soilless culture) under conditions of hard water and/or calcareous soils. With 100% assimilable nutrients, Seerin-00:60:20 makes phosphorus and potassium readily available to the plant. Reduces water pH by being applied directly to hard water. Seerin00:60:20 is white and practically free of impurities and residues. It dissolves quickly into a clear solution without clogging up irrigation systems.

CONTENT:

| | |
|----------------------------|-----------|
| Total available Phosphorus | 60% |
| Total available Potassium | 20% |
| Total moisture% maximum | 0.5% |
| Bulk Density | 1.27 Kg/L |
| EC (mS/cm) 1% Solution | 1.40 |
| pH | 2.2 |

BENEFIT: Completely water-soluble and Suitable for fertigation, Foliar application, and a moderately low pH and salt index. Suitable for fertigation and foliar application. It has proven effects on fungal diseases control.

DOSE: For drip 2-3 Kg per acre at harvesting stage regularly & for foliar spray 1 Kg in 200 Liter water along with 250gm Akshat Combi-2.

SPECIALITY: High field efficacy. Boost in EC. Seerin- 00:60:20 is compatible with most water-soluble fertilizers. Safe and Easy to Use. Low chloride and insoluble matter content.

CROPS: All Vegetable Crops, fruits, field crops, and Nursery Plants.

Advisory: Consult our agronomist or company representative for further information. Doses are recommended on a production basis.
